## EXPERIENCE

### MIK Fund Solutions — *Lead Software Engineer*

OCTOBER 2012 - PRESENT

Created fully responsive, cross-platform financial applications for large hedge fund clients.

Built extendable "shell" web application allowing for plug-and-play modules for all products.

Collaborated with company founder and CEO to prototype and design applications.

Lead development of large scale applications that allow users to create custom financial reports.

Worked directly with clients to build custom interfaces, creating a personalized user experience to meet specific needs.

### KIT Digital — *Front End Developer*

JULY 2011 - SEPTEMBER 2012

Created web applications that allowed for user account creation, messaging and media uploads. Clients included American Express, Doctor OZ, Herbalife, Illy Coffee, Scholastic, Toyota, and Weather.com.

### Foremost Groups, Inc — *Corporate Web Designer*

APRIL 2007 - MAY 2011

Worked as lead web designer and developer for global corporation. Planned, designed, developed and managed five corporate websites and two e-commerce websites. Created PHP/SQL admin back-end for product entry.

### PintMeisters — *Co-Founder, Web & Graphic Designer*

APRIL 2008 - OCTOBER 2014

Co-founded organization that hosted charitable social events. Created responsive website with a PHP/SQL admin. Designed all media including organization the company logo, flyers and brochures.
